Paul wrote to Timothy from prison, unable to move about and proclaim the gospel as he was accustomed to do. Even though he was in chains, Paul recognized that God's Word was still able to penetrate the darkest corners of his world, unhindered by what was constraining him at the time.

Africa's Hope exists to make the Word freely available to our churches across Africa, as well as to any dark corner where the gospel is restricted from being freely preached. Printed material can make it to areas missionary feet cannot go. Judy and I have been privileged to work with Africa's Hope for many years to enable the vision of discipling and training Spirit empowered leaders who are equipped to reach into the dark corners of the African continent.

The Discovery Series is a three-year curriculum designed to disciple and train new pastors, church planters, and cross-cultural missionaries. Thousands of students study this curriculum all over Africa each year. Currently, there are 34 of these diploma level texts available. Bill wrote two of them.

*But the word of God
is not bound!*

Two books Bill wrote for the Discovery series. The book on the right is:
The Pentateuch: The Five Books of Moses in French

Africa's Hope is actively translating the 34 texts in this series into 18 of the major languages spoken across Africa, so each student can study the Word in his or her heart language. Each text also has a teacher's packet and student workbook to help as the material is presented in the classroom.

In addition to the Pan-Africa Theological Seminary that Bill leads, Africa's Hope provides resources including *Living the Truth*, *Roots of Faith*, and *a Pentecostal Pastor's Manual*. We also provide student scholarships, libraries, technology for schools, campus development, print-on-demand systems to print the materials we produce, as well as training seminars for school administrators and faculty.

Thank you for making all this possible!

Sincerely,
Bill & Judy Kirsch
